

About Us

Last Updated Monday, 09 February 2009

MCS is a small company located in Hampton, NH. We are comprised of 2 PC & Network Support Specialists/Technicians, and a per-diem Printer Technician, covering the New Hampshire seacoast, Southern Maine, and the Massachusetts North Shore.

With little overhead, MCS is able to offer you rates substantially lower than those of other "consulting firms", local computer shops, and "big chain stores". We can guarantee the finest quality work performed, at the lowest rates possible.

We specialize in residential work & small offices. Some of our clients include real estate/development offices, medical offices, hospitals, and home offices.

We also perform data recovery services so you can get your most important files back after loss of data due to Windows crash, virus attack or accidental format of your hard drive. Click services for data recovery info and rates.

MCS can effectively help you reduce your PC & Network installation, support, and maintenance costs, in most cases by 1/2 the cost!

MCS also provides web design services for Hampton, NH area small businesses and residential folks looking for personal web page design. We can build you a web site, and also make sure you place high in the major search engines like Google and Yahoo. Please click "Services" above for more info.

We have lower visit fees, lower hourly rates, and lower flat rates.
